I am privileged to be Head Boy. I plan on doing my best for the school in many ways, such as helping out at different events and after school clubs. For me it is very important to make sure a student’s point of view is heard.

I am currently studying Double Sport and Applied Science, with my goal being to get a degree apprenticeship after Sixth Form. However, I understand that apprenticeships are hard to come by now so I am also preparing to go to university to study a Sport or Science course, just in case I cannot secure a placement directly in the area where I would like to work.

During my time as Head Boy, I plan on working with senior staff as well as other students to make the school a better place. If we work together it will allow the school to be a better learning environment for the following year groups coming through.

Ekta Sidhar
HEAD GIRL

It is a massive privilege to be the Head Girl of Moseley Park. One of my main goals is to increase awareness among students of the importance of education and how vital it is to work hard and apply yourself to get the best qualifications possible, but also have the greatest school experience. It is essential that students value learning, but also enjoy the social aspects of Key Stage 3 and 4 education. I also want to put emphasis on the student voice so pupils feel more involved in the school and have a say in overall outcomes.

Currently I am studying A Level Mathematics, Biology and Psychology. I chose a mix of subjects that involve both Mathematical and English skills. These subjects have really developed my approach to problems, where I am now able to think more critically and analytically, whether this is in exams or real life situations. After Year 13, I plan on going to university to continue studying Psychology, ultimately, with the career aspiration of being a Clinical Psychologist. I would like to interact with individuals in mental distress and help them so that their quality of life is improved, as well as that of those around them.

I am incredibly grateful to be in the Head Girl position, and I hope to have a positive impact on the school by working with younger students, other Sixth Formers and staff to elevate Moseley Park further.
Tyler Edwards  
DEPUTY HEAD BOY

I am so grateful to be Deputy Head Boy of Moseley Park School. The progress the school has gone through in such a short amount of time is incredible, and I am proud to help contribute to further development.

I study Psychology, Maths and Chemistry with the eventual goal of studying Psychology at university to a masters’ degree level. The end goal is to become a Forensic Psychologist, studying criminal behaviour.

My goal as Deputy Head Boy is to encourage communication between the lower years and members of the Sixth Form, offering assistance with education through the form of tutoring or offering guidance by describing their Sixth Form experience. I am incredibly proud to take my position on the student leadership team and can't wait to see what the future has in store.

Eesha Suman  
DEPUTY HEAD GIRL

Throughout the years I have attended Moseley Park, I have witnessed a great deal of positive change to the school. This is why I feel an immense amount of pride in regard to becoming Deputy Head Girl, as I only wish to add to these advancements. I want to help Moseley Park become a better school for both the students and the teachers, ensuring that everyone feels motivated and excited to attend.

Moseley Park has given me the tools and the knowledge to pursue my dream career in the TV and Film industry. What I have learnt during my Art, Media and English courses at Sixth Form has helped me become more critical and socially aware, and my determination has never failed me.

The position of Deputy Head Girl is beyond a privilege and I hope to help inspire students to work towards their goals, as I truly feel that if you work hard you can achieve anything.
